

Topics to Include

Remarks by US Senator Maggie Hassan

Session 1 Hydrogen

Taking a look at all of the emerging opportunities for hydrogen in the NH Energy Arena and what comes with them; technological advances, carbon reduction, and generous tax benefits that signal opportunity. There are complex regulator, and business developments to consider too; setting the right expectation will be the focus of this summit discussion.

Panelists:

- **Bill Clark, Senior Director of Business Development at Liberty Utilities**
- **Senator Watters, NH State Senate**

Session 2 The Future of Default Service

Community power aggregation, increased self-generation, along with volatility in the wholesale market signal a changing landscape.

Panelists:

- **Brian Callnan, CEO Community Power Coalition**
- **Parker Littlehale, Manager of Wholesale Supply, Eversource**

Session 3 Siting

NH's Siting Law: Is it working, or should it be reformed? If so, how?

Panelists:

- **Moderated By Carol Holahan, Partner at Foley Hoag & Eliot LLP**
- **Amy Manzelli, BCM Environmental & Land Law**
- **Mark Sanborn, Assistant Commissioner, NH Dept. of Energy**
- **Jim Andrews, President and CEO, Granite Shore Power LLC**

Session 4

PUC Dockets and NH Dept. of Energy Investigations

This panel will take a look at 4 active dockets: and investigations: interconnection, energy efficiency, energy storage, net metering

Panelists:

- **Sam Evans-Brown, Executive Director, Clean Energy NH**
- **Elizabeth Nixon, Electric Director, NH Dept. of Energy**
- **Vaughan Woodruff, Employee Owner & VP of Workforce Development**
- **Don Kreis, Consumer Advocate**
